Hurricane Katrina Information

If you have not yet reported your claim, please do so by calling **1-866-275-7322**.

After you have reported your claim, there are some things you can do before the adjuster inspects your property to help protect it from further damage and also to help with the loss adjustment process.

1. Make temporary repairs.
2. Save any damaged goods for inspection by the adjuster.
3. Clean your property and grounds to prevent further damage.

Be sure to save any receipts for material or labor expenses incurred in protecting your property from further damage.

We appreciate your patience while we are working toward helping each insured that suffered a loss. Should you have a question, please have your claim number available and call 1-800-821-9803. Thank you for reporting your loss. We will respond to your claim as quickly as possible.
